

UPDATES TO VEGAN LONDON COMPLETE July 2021

Before visiting places in the book, check with their social media about latest opening times following the big reopening on 17 May 2021. A few have closed, but almost all are still there and welcome your business. Opening times of new places especially can be all over the place during the first year till they find what works.

All branches of Mildreds are now 100% vegan.

All branches of Cook Daily are currently closed.

Both branches of Tibits and both branches of Wild Food Café have closed permanently.

We hear that all branches of Redemption have closed except for Covent Garden.

Young Vegans pie shop is closed in Camden, but you can still get their goodies online.

This page is a supplement to the guidebook *Vegan London Complete* by Alex Bourke, available from any UK bookshop and at www.VeganLondon.Guide. For more and latest information, follow Facebook "*Vegan London Complete (Vegetarian London)*" and scroll to see postings about the new places as we hear about them.
